EDUCATION

Pace University, Seidenberg School of Computer Science and Information Systems

New York, NY

Master of Science (MS) in Computer Science | GPA: 3.74

May 2021

Relevant Coursework: Mobile Web Development, HMN Factor and Usability Metrics, Algorithms and Computing Theory, Database Management, Internet Computing, Security in Computer Networking, Parallel Computing and distribution.

Christ University Faculty of Engineering

Karnataka, India

Bachelor of Technology (BTech) in Computer Science

May 2018

Relevant Coursework: User Interface Design, Graphics and Multimedia, Software Engineering, Object-Oriented Programming, Mobile Computing, Operating Systems, Networking.

TECHNICAL SKILLS

Programming Languages: Java 8, C, Python

Web Technologies: HTML, CSS, JavaScript, Node.js

Version Control: GitHub **Automation:** Docker

Frameworks: React, Express.js, Material UI

Databases: MySQL

Platforms: Linux, Windows

ACADEMIC PROJECTS

Fitness Application

September 2020 – May 2021

- Collaborated with a team of 4 to develop a fitness application to provide users with suitable nutrition programs and at-home workout routines using React framework and JavaScript.
- Coordinated with the team as a QA Analyst to improve processes and software through data analysis and data testing using the qTest tool.

Java Database Application

April 2020 – May 2020

- Designed an ER diagram of a paper review system and created SQL queries for the database.
- Developed a Java application that can manipulate the SQL queries to perform certain operations by connecting to a JDBC.

RESTful Web Service Application

December 2019 – January 2020

- Created a RESTful web service that responds to four GET routes that runs in a Docker container.
- Designed a customized JSON file, used as a database. The file has details for a user to select from a confectionary menu card.

EXPERIENCE

New York State Public Health Association

New York, New York

Web Development Intern

July 2020 - December 2020

• Collaborated with team of 3 as frontend developer to design advocacy tool for non-profit organization using React and Material UI frameworks with MySQL for database, aiming to help users to contact elected representatives about health-related issues.

Hewlett Packard, Inc. Karnataka, India

Technical Support Engineer

September 2018 - March 2019

- Liaised with global Technical Support team to help customers in Australia and New Zealand to resolve technical and electrical issues with HP products by troubleshooting over phone and video calls.
- Increased overall company sales volume by 20%+ through innovative marketing campaign.

Tata Consultancy Services

Karnataka, India

Software Engineer Intern

May 2017 - August 2017

• Worked in collaboration with the design team to create a prototype of the TCS Transaction Monitor which helps to track performance and availability of a portal globally using JavaScript, HTML, and CSS.

Preva Systems Pvt Ltd

Karnataka, India

Product Development Engineer Intern

April 2016 - May 2016

- Evaluated Internet of Things (IoT) devices' reliability and performance using various testing tools, which led to a 20% increase in the company's productivity to deliver improved and faster services.
- Collaborated with a team of 2 to design and implement a prototype of a Smart stick for the visually impaired using Arduino Uno board and various sensors.
